

Workshop 1

LASERS AND BALLOONS

EQUIPMENT LIST

- 1 Focusable Green Laser Pointer (50 to 100 mW, Wavelength : 532 nm)
- 100 Balloons (Black, White, Green, etc...)
- 2 Pairs of safety goggles
- 5 Clear cups filled with water
- 1 Manual balloon pump
- 1 Black permanent marker

INSTALLATION STEPS

- Place the table facing a plain wall without any windows.
- Line up the cups filled with water to hold the balloons in place.
- Inflate 1 black, 1 white, and 1 green balloon to the same size.
- Mount the laser on a tripod, to aim at the center of the balloons.
- Dim the lights in the room, so you can see the laser beams clearly.

The Double Ball (Wow Effect)

Slide a black balloon inside a clear white balloon. Inflate both of them. Aim the green laser at them : the black one will burst inside, while the white one remains intact !
